

## USCAP CME for TDAC Participation

Approximately one week after your TDAC has met, USCAP will send you a certificate for 10 hours of CME for TDAC participation. If you are an USCAP member, your credits will automatically be entered into your portfolio. You will be able to see your credits if you wish:

Go to [USCAP.org](http://USCAP.org) and Log In.

'My Profile' page will appear, click on CME/SAMs portfolio.

From this page you can view/print out the CME transcript, just follow the instructions on the page.

If you are not a member, you will not have a portfolio. The only verification non-members receive for their credits will be the certificate that is sent to you.
